OFFICE OF INSPECTOR GENERAL**

**Coronavirus Relief Fund
Prime Recipient Quarterly Grant Solutions Submissions
Monitoring and Review Procedures Guide
OIG-CA-20-029
August 31, 2020**

A. Overview

Title VI of the Social Security Act, as amended by Title V of Division A of the *Coronavirus Aid, Relief, and Economic Security Act* (Public Law 116-136)¹ establishes the Coronavirus Relief Fund (CRF) and appropriated \$150 billion for making payments to States, Tribal governments, units of local government, the District of Columbia, and U.S. Territories. Payments were to be made in accordance with requirements outlined in Title V, of which \$3 billion is reserved for payments to the District of Columbia and U.S. Territories and \$8 billion is reserved for payments to Tribal governments. Further, no State was to receive a payment of less than \$1.25 billion. The CARES Act assigned the Department of the Treasury (Treasury) Office of Inspector General (OIG) with responsibility for monitoring and oversight of the receipt, disbursement, and use of CRF payments. Treasury OIG also was assigned authority to recoup CRF proceeds in the event that it is determined a recipient of a CRF payment failed to comply with requirements of subsection 601(d) of the Social Security Act, as amended, (42 U.S.C. 801(d)).

The CARES Act stipulates that CRF recipients shall use the funds provided under a payment made under Title V to cover only those costs that

- (1) are necessary expenditures incurred due to the public health emergency with respect to Coronavirus Disease 2019 (COVID-19);
- (2) were not accounted for in the budget most recently approved as of March 27, 2020; and
- (3) were incurred between March 1, 2020 and December 30, 2020.

B. GrantSolutions Reporting Portal

GrantSolutions, a grant and program management Federal shared service provider under the U.S. Department of Health and Human Services, has developed a customized and user-friendly reporting solution to capture the use of CRF payments from prime recipients.² The GrantSolutions portal will be prepopulated with prime recipient data to include CRF payment amount(s), date(s), recipient Dun & Bradstreet unique identification number (DUNS number), and contact information. It is the responsibility of

¹ P.L. 116-136 (March 27, 2020)

² Prime recipients include all 50 States, units of local governments, the District of Columbia, U.S. Territories, and Tribal Governments that received a direct Coronavirus Relief Fund payment from Treasury in accordance with the CARES Act.

the prime recipients to report on uses of CRF payments in the GrantSolutions portal.

Each prime recipient must designate at least one preparer (two preparers preferred) to enter data into GrantSolutions and an authorizing official, who is responsible for certification and submission of the recipient's quarterly report. The preparer(s) is only permitted to enter data into the required fields and validate entries once completed. Authorizing officials are responsible for reviewing and certifying the information prior to submission within the portal. Accordingly, only these individuals will be granted user permissions in the GrantSolutions portal.

Prime recipient reported data will be provided to the Pandemic Response Accountability Committee (PRAC), which will publish the data on its website in accordance with Section 15010 of the CARES Act.³

C. Prime Recipient Reporting Requirements

Each prime recipient must report COVID-19 related obligations and costs incurred during the covered period (the period beginning on March 1, 2020, and ending on December 30, 2020), as outlined in the *Coronavirus Relief Fund Reporting Requirements Update* (OIG-CA-20-025, July 31, 2020⁴) as follows.

Projects

The prime recipient must list all projects⁵ it plans to complete with CRF payments. For each project, the prime recipient will be required to enter the

1. project name,
2. identification number (created by the prime recipient),
3. description, and
4. status of completion.

Once a project is entered into the GrantSolutions portal, the prime recipient must report on the project's obligations and expenditures.

³ Section 15010 of P.L. 116-136 established the PRAC within the Council of Inspectors General on Integrity and Efficiency to promote transparency and conduct and support oversight of covered funds and the coronavirus response to (1) prevent and detect fraud, waste, abuse, and mismanagement; and (2) mitigate major risks that cut across program and agency boundaries.

⁴ The original prime recipient reporting requirements are contained in *Coronavirus Relief Fund Reporting and Record Retention Requirements* (OIG-CA-20-021; July 2, 2020).

E. Treasury OIG GrantSolutions Monitoring and Review Overview

The CARES Act assigned responsibility for monitoring and oversight of the receipt, disbursement, and uses of CRF payments to the Treasury OIG. Treasury OIG was assigned authority to recoup funds in the event that it is determined a recipient of a CRF payment failed to comply with requirements under Section 601(d) of the Social Security Act, as amended by Title V of the CARES Act.

The GrantSolutions portal quarterly submission reviews are a first step in the Treasury OIG's overall monitoring and oversight responsibilities to ensure accountability and transparency of prime recipients' uses of CRF payments. Procedures for in-depth desk reviews and audits of prime recipients' uses of funds are contained in separate procedures documents. GrantSolutions quarterly submission reviews are designed to identify material omissions and significant errors, and where necessary, include procedures for notifying recipients of misreported data for timely correction.

- Material omissions are those instances in which required data is not reported resulting in significant risk that the public is not fully informed as to the status of a COVID-19 related project or activity cost.

- Significant reporting errors are those instances in which required data is not reported in accordance with the GrantSolutions portal instructions and such erroneous reporting results in significant risk that the public will be misled or confused by the recipient report in question.

Purpose

The purpose of GrantSolutions monitoring and review procedures is to assist Treasury OIG in performing reviews and approvals of prime recipients' quarterly submissions of CRF uses. Procedures for more-in-depth reviews are documented in the *Coronavirus Relief Fund: Prime Recipient Desk Review Procedures Guide*.

Objective

The objective of the quarterly GrantSolutions monitoring and review is to monitor the progress of prime recipient reporting in the portal and determine where direct follow up/outreach is needed; and for certified submissions, determine whether prime recipients' submissions were timely and were submitted in accordance with the GrantSolutions portal instructions prior to OIG approval.

Quarterly Monitoring Scope and Methodology

The scope of the quarterly monitoring will include prime recipients' quarterly submissions in GrantSolutions according to the submissions schedule, beginning with the first quarter submission due by September 21, 2020 and ending with the quarter ending September 2021, according to the following timeline. Please note that this schedule is for prime recipients that will populate the GrantSolutions portal through manual entry. Recipients using the GrantSolutions upload feature will have a different schedule beginning in November 2020.

Reporting Timeline for Manual Entry to GrantSolutions Portal

By no later than September 21, 2020, the prime recipient's authorizing official must certify and submit via the GrantSolutions portal the first detailed quarterly report, which shall cover the period of March 1 through June 30, 2020. Thereafter, quarterly reporting will be due no later than 10 calendar days after the end of each calendar quarter. If the 10th calendar day falls on a weekend or a Federal holiday, the due date will be the next working day. For example, the period July 1 through September 30, 2020, must be reported no later than Tuesday, October 13, 2020 (considers that the 10th calendar is on a weekend and the following Monday is a Federal

Holiday). The table below summarizes the quarterly reporting timeline for prime recipients of Coronavirus Relief Fund payments.

General Instructions

Treasury OIG staff will review the quarterly submission to ensure that prime recipients have reported required information and accounted for the current period's obligations and expenditures for contracts, grants, loans, direct payments, and obligations and expenditures for these categories, among other information, in accordance with the GrantSolutions portal instructions.

The process for reviewing reporting submissions is as follows:

- CARES Act Audit Director and/or Audit Manager or other designee will assign prime recipient quarterly submission to a Treasury OIG reviewer.
- The OIG reviewer will launch GrantSolutions website at www.grantsolutions.gov.
- Login: The system will prompt for a password and the user will login.
- Select Quarterly Report: The OIG reviewer will select the report(s) to initiate review. There will be a mechanism for extracting recipient reports for review.
 - Checks for total CRF disbursements from Treasury to a prime recipient may be conducted by comparing the prime recipient's funding reported on the GrantSolutions prime section to Treasury's published payment amount at [The CARES Act Provides Assistance for State, Local, and Tribal Governments](#) |

[U.S. Department of the Treasury](https://www.usaspending.gov) and amounts reported in [USAspending.gov](https://www.usaspending.gov).

Treasury OIG Review and Timeline

- Other than the first reporting period (see schedule), during days 1-10 following the end of the quarter, the prime recipient will prepare and enter CRF data into GrantSolutions. The preparer(s) must validate data entries by categories (i.e. contract, grant, loan, etc.) and the authorizing official must certify as to the accuracy and completeness of the quarterly submission. OIG reviewers will track progress of prime recipient submissions through the GrantSolutions Status Dashboard and follow up on those recipients that have not initiated entries to the GrantSolutions portal by the end the 5th day. A prime recipient that has not submitted its quarterly submission by the end of the 10th day will be considered non-compliant with Treasury OIG prime recipient reporting requirements. Treasury OIG will follow up with the prime recipient on cause of non-compliance and resolution for next quarter's submission.
- Once the prime recipient has submitted the financial progress report form, Treasury OIG reviewers will initiate quarterly submission reviews as assigned by the CARES Act Audit Director and/or Audit Manager or other designee. If the Treasury OIG reviewer determines that corrections or additional information may be required, the reviewer should determine if corrections can be made before the recipient's reporting due date. If so, the reviewer should contact the recipient and request the corrections be made. If the reporting due date has passed, the reviewer will need to determine if they should return the submission, recommend approval of the submission with instructions to the recipient to correct the issue in the next reporting period, or return the submission and grant an extension (with the approval of the Deputy Assistant Inspector General and the Audit Director) to allow the recipient to correct the issue before the end of the OIG Review Period. Once a quarterly submission is recommended for approval by the reviewer, the submission will be approved by the CARES Act Audit Director and/or Audit Manager or other designee.

F. Quarterly Monitoring and Review Guidelines

The following procedures are guidelines to assist Treasury OIG Reviewers and Approvers in monitoring and reviewing prime recipient reporting in GrantSolutions. These procedures are to be used at the discretion of the reviewer and are not required for each review. In addition, these procedures do not exclude other reviews and analysis of prime recipient data as deemed appropriate. While performing reviews, the following is a list of items to consider. More in-depth reviews of prime recipient data will be part of the Treasury OIG desk reviews and/or audits of a prime recipient.
